From the 2014 Administration

This Practice Exam is provided by the College Board for AP Exam preparation. Teachers are permitted to download the materials and make copies to use with their students in a classroom setting only. To maintain the security of this exam, teachers should collect all materials after their administration and keep them in a secure location. **Exams may not be posted on school or personal websites, nor electronically redistributed for any reason.** Further distribution of these materials outside of the secure College Board site disadvantages teachers who rely on uncirculated questions for classroom testing. Any additional distribution is in violation of the College Board's copyright policies and may result in the termination of Practice Exam access for your school as well as the removal of access to other online services such as the AP Teacher Community and Online Score Reports.

## SECTION I: Multiple Choice

**Do not begin the exam instructions below until you have completed the appropriate General Instructions for your group.**

Make sure you begin the exam at the designated time.

*If you are giving the regularly scheduled exam, say:*

**It is Thursday morning, May 15, and you will be taking the AP World History Exam.**

*If you are giving the alternate exam for late testing, say:*

**It is Wednesday afternoon, May 21, and you will be taking the AP World History Exam.**

**In a moment, you will open the packet that contains your exam materials. By opening this packet, you agree to all of the AP Program’s policies and procedures outlined in the *2013-14 Bulletin for AP Students and Parents*. You may now remove the shrinkwrap from your exam packet and take out the Section I booklet, but do not open the booklet or the shrinkwrapped Section II materials. Put the white seals aside. . . .**

**Carefully remove the AP Exam label found near the top left of your exam booklet cover. Now place it on page 1 of your answer sheet on the light blue box near the top right-hand corner that reads “AP Exam Label.”**

If students accidentally place the exam label in the space for the number label or vice versa, advise them to leave the labels in place. They should not try to remove the label; their exam will be processed correctly.

**Read the statements on the front cover of Section I and look up when you have finished. . . .**

**Sign your name and write today's date. Look up when you have finished. . . .**

**Now print your full legal name where indicated. Are there any questions? . . .**

**Turn to the back cover and read it completely. Look up when you have finished. . . .**

**Are there any questions? . . .**

**Section I is the multiple-choice portion of the exam. You may never discuss these specific multiple-choice questions at any time in any form with anyone, including your teacher and other students. If you disclose these questions through any means, your AP Exam score will be canceled.**

**Are there any questions? . . .**

**The answer sheet has circles marked A–E for each question. For World History, you will use only the circles marked A–D. You must complete the answer sheet using a No. 2 pencil only. Mark all of your responses beginning on page 2 of your answer sheet, one response per question. Completely fill in the circles. If you need to erase, do so carefully and completely. No credit will be given for anything written in the exam booklet. Scratch paper is not allowed, but you may use the margins or any blank space in the exam booklet for scratch work. Are there any questions? . . .**

**You have 55 minutes for this section. Open your Section I booklet and begin.**

**Note Start Time here \_\_\_\_\_.** Note Stop Time here \_\_\_\_\_. Check that students are marking their answers in pencil on their answer sheets, and that they are not looking at their shrinkwrapped Section II materials. After 55 minutes, say:

**Stop working. Close your booklet and put your answer sheet on your desk, face up. Make sure you have your AP number label and an AP Exam label on page 1 of your answer sheet. I will now collect your answer sheet.**

Collect an answer sheet from each student. Check that each answer sheet has an AP number label and an AP Exam label. Then say:

**Now you must seal your exam booklet. Remove the white seals from the backing and press one on each area of your exam booklet cover marked "PLACE SEAL HERE." Fold each seal over the back cover. When you have finished, place the booklet on your desk, face up. I will now collect your Section I booklet. . . .**

Collect a Section I booklet from each student. Check that each student has signed the front cover of the sealed Section I booklet.

There is a 10-minute break between Sections I and II. When all Section I materials have been collected and accounted for and you are ready for the break, say:

**Please listen carefully to these instructions before we take a 10-minute break. Everything you placed under your chair at the beginning of the exam must stay there. Leave your shrinkwrapped Section II packet on your desk during the break. You are not allowed to consult teachers, other students, or textbooks about the exam during the break. You may not make phone calls, send text messages, check email, use a social networking site, or access**

any electronic or communication device. Remember, you are not allowed to discuss the multiple-choice section of this exam. If you do not follow these rules, your score could be canceled. Are there any questions? . . .

You may begin your break. Testing will resume at \_\_\_\_\_.

## SECTION II: Free Response

After the break, say:

**May I have everyone's attention? Place your Student Pack on your desk. . . .**

**You may now remove the shrinkwrap from the Section II packet, but do not open either the Section II exam booklet or the orange Section II: Free Response, Questions and Documents booklet. . . .**

**Read the bulleted statements on the front cover of the exam booklet. Look up when you have finished. . . .**

**Now place an AP number label on the shaded box. If you don't have any AP number labels, write your AP number in the box. Look up when you have finished. . . .**

**Read the last statement. . . .**

**Using your pen, print the first, middle and last initials of your legal name in the boxes and print today's date where indicated. This constitutes your signature and your agreement to the statements on the front cover. . . .**

**Turn to the back cover and complete Item 1 under "Important Identification Information." Print the first two letters of your last name and the first letter of your first name in the boxes. Look up when you have finished. . . .**

**In Item 2, print your date of birth in the boxes. . . .**

**In Item 3, write the school code you printed on the front of your Student Pack in the boxes. . . .**

**Read Item 4. . . .**

**Are there any questions? . . .**

**I need to collect the Student Pack from anyone who will be taking another AP Exam. You may keep it only if you are not taking any other AP Exams this year. If you have no other AP Exams to take, place your Student Pack under your chair now. . . .**

**While Student Packs are being collected, read the information on the back cover of the exam booklet. Do not open the booklet until you are told to do so. Look up when you have finished. . . .**

Collect the Student Packs. Then say:

**Are there any questions? . . .**

**Read the information on the front cover of the orange booklet. Look up when you have finished. . . .**

**Section II has three parts and begins with a 10-minute reading period. During the reading period, you will read and plan what you will write for Part A, Question 1, which is the document-based question. If you have time, you may also read the essay questions in Parts B and C. You can make notes in the orange booklet. Are there any questions? . . .**

**You may now open the orange booklet and begin the 10-minute reading period. Do not open the exam booklet yet.**

 Note Start Time here \_\_\_\_\_. Note Stop Time here \_\_\_\_\_. Check that students are writing any notes in the orange booklet. If any students begin writing their responses during this time, remind them that the reading period is not yet over, and that the reading period is designed to provide students with time to develop better organized, higher scoring responses. If the students choose to continue writing responses, take no further action. After 10 minutes, say:

**Stop. The reading period is over. You have 2 hours to complete Section II. The suggested writing time for Question 1 is 40 minutes. After 40 minutes, you will be advised to go on to Part B and then 40 minutes later to move on to Part C. You are responsible for pacing yourself, and may proceed freely from one part to the next. You may use the orange booklet for scratch work, but you must write your answers in the exam booklet using a pen with black or dark blue ink. Write the number of the question you are working on in the box at the top of each page in the exam booklet. If you need more paper during the exam, raise your hand. At the top of each extra piece of paper you use, be sure to write only your AP number and the number of the question you are working on. Do not write your name. Are there any questions? . . .**

**You may begin.**

 Note Start Time here \_\_\_\_\_. Note Stop Time here \_\_\_\_\_. Check that students are using pens and that they are writing their answers in their exam booklets and not in their orange booklets. After 40 minutes, say:

**You should now move on to Part B.**

After 40 minutes, say:

**You should begin working on Part C. You will need the remaining 40 minutes to complete your last essay.**

After 30 minutes, say:

**There are 10 minutes remaining.**

After 10 minutes, say:

**Stop working and close your exam booklet and orange booklet. Put your exam booklet on your desk, face up. Put your orange booklet next to it. Do not place your Section II exam booklet inside your orange booklet or vice versa. . . .**

If any students used extra paper for the free-response section, have those students staple the extra sheet/s to the first page corresponding to that question in their exam booklets. Then say:

**Remain in your seat, without talking, while the exam materials are collected. . . .**

Collect a Section II booklet and an orange booklet from each student. Check for the following:

- Exam booklet front cover: The student placed an AP number label on the shaded box, and printed his or her initials and today's date.
- Exam booklet back cover: The student completed the "Important Identification Information" area.
- The student wrote answers in the correct areas of the Section II exam booklet and not in the orange booklet.

When all exam materials have been collected and accounted for, return to students any electronic devices you may have collected before the start of the exam.

*If you are giving the regularly scheduled exam, say:*

**You may not discuss or share these specific free-response questions with anyone unless they are released on the College Board website in about two days. Your AP score results will be available online in July.**

*If you are giving the alternate exam for late testing, say:*

**None of the questions in this exam may ever be discussed or shared in any way at any time. Your AP score results will be available online in July.**

If any students completed the AP number card at the beginning of this exam, say:

**Please remember to take your AP number card with you. You will need the information on this card to view your scores and order AP score reporting services online.**

Then say:

**You are now dismissed.**

All exam materials should be put in secure storage until they are returned to the AP Program after your school's last administration. Before storing materials, check the "School Use Only" section on page 1 of the answer sheet and:

- Fill in the appropriate section number circle in order to access a separate AP Instructional Planning Report (for regularly scheduled exams only) or subject score roster at the class section or teacher level. See "Post-Exam Activities" in the *2013-14 AP Coordinator's Manual*.
- Check your list of students who are eligible for fee reductions and fill in the appropriate circle on their registration answer sheets.

- IMPORTANT: The orange booklets must be returned with the rest of your exam materials.**
- This applies to all exam administrations, including late testing. These booklets are not to be kept at the school, or returned to students or teachers. When sorting exam materials for return, keep the orange booklets separate from the Section II exam booklets. Do not place Section II exam booklets inside the orange booklets or vice versa. The free-response questions for the regularly scheduled exam may not be discussed unless the questions are released on the College Board website two days after the exam.**

### Instructions

Section I of this exam contains 70 multiple-choice questions. Fill in only the circles for numbers 1 through 70 on your answer sheet. Because this section offers only four answer options for each question, do not mark the (E) answer circle for any question.

Indicate all of your answers to the multiple-choice questions on the answer sheet. No credit will be given for anything written in this exam booklet, but you may use the booklet for notes or scratch work. After you have decided which of the suggested answers is best, completely fill in the corresponding circle on the answer sheet. Give only one answer to each question. If you change an answer, be sure that the previous mark is erased completely. Here is a sample question and answer.

Sample Question    Sample Answer

- Chicago is a                       (A) state  
      (B) city  
      (C) country  
      (D) continent

Use your time effectively, working as quickly as you can without losing accuracy. Do not spend too much time on any one question. Go on to other questions and come back to the ones you have not answered if you have time. It is not expected that everyone will know the answers to all of the multiple-choice questions.

Your total score on the multiple-choice section is based only on the number of questions answered correctly. Points are not deducted for incorrect answers or unanswered questions.

**Part A**  
**(Suggested writing time—40 minutes)**  
**Percent of Section II score—33 1/3**

**Directions:** The following question is based on the accompanying Documents 1-10. (The documents have been edited for the purpose of this exercise.) Write your answer on the lined pages of the Section II free-response booklet.

This question is designed to test your ability to work with and understand historical documents.

Write an essay that:

- Has a relevant thesis and supports that thesis with evidence from the documents.
- Uses all of the documents.
- Analyzes the documents by grouping them in as many appropriate ways as possible. Does not simply summarize the documents individually.
- Takes into account the sources of the documents and analyzes the authors' points of view.
- Identifies and explains the need for at least one additional type of document.

You may refer to relevant historical information not mentioned in the documents.

1. Analyze similarities and differences in land reforms resulting from the Mexican and Russian revolutions. Identify an additional type of document and briefly explain how it would contribute to your analysis of land reform in Mexico and Russia.

Historical Background: Prior to the Mexican Revolution in 1910 and the Russian Revolution in 1917, most agricultural land was held in large estates by a small group of wealthy landowners.

## Document 1

Source: Emiliano Zapata, main leader of the peasant rebellion, written public manifesto, Mexico, 1911.

We demand that the fields, timber, and water, which the landlords and political bosses have held illegally, should now go to the pueblos,\* or back to the citizens, who originally held the titles to these resources. The pueblo dwellers will immediately take possession of the property that their oppressors have stolen, and if necessary, the pueblos may use force. The current possessors of these resources, who consider themselves as having a legal right to them, will have a chance to present their cases before special courts after the revolution is completed.

Those landlords and political bosses who oppose this plan will have their property taken over immediately by the government. Two-thirds of the property's value will go for pensions for widows and orphans of those peasants who will have died in the current struggle.

The owners of large estates have legal rights. It is not possible to take away their property and give it to those who do not have legal title to the property. This land redistribution business is absurd. Tell me which estates you now have control of and wish to redistribute that do not indeed legally belong to someone else.

## **Document 3**

Source: Resolution adopted by the All-Russian Congress of Peasants' Deputies, Russia, 1917.

The All-Russian Congress of Peasants' Deputies announces to the entire Russian peasantry that from this point forward all the work in preparation for land reform will pass into the hands of the working people themselves. The work of land reform will be based on the following principles: The transfer, without compensation, of all lands now belonging to the state, monasteries, churches, and private individuals to the nation for free and fair use by agricultural workers.

Firmly believing in the growing strength, organization, and intelligence of the toiling peasantry, the All-Russian Congress of Peasants' Delegates is deeply convinced that private ownership of farmland, forests, waterpower, and mineral resources must be abolished.

#### **Document 4**

Source: Article 27 of the Mexican Constitution of 1917.

The ownership of lands and waters rests with the nation, which has the right to transmit private property to private persons.

Private property shall not be taken without compensation, except for reasons of public utility, and then only by fairly compensating landowners for their property.

The nation shall have at all times the right to impose on private property such limitations as the public interest may demand as well as the right to regulate the development of natural resources in order to conserve them and to equitably distribute the public wealth. For this purpose, all necessary measures shall be taken to divide large landed estates; to develop small landed holdings; to establish new communal farms of agricultural workers with such lands and waters as may be needed by them. Private property acquired for these purposes shall be considered as taken in the public interest.

Look General,\* I am going to have to give up more of my land than you did because within three or four months I fear we are going to have another revolution here in Mexico. I have to demonstrate to the peasants that I am just as revolutionary as you. Part of the army is ready to rebel against me; I am going to need the support of the peasants if this happens.

Source: Joseph Stalin, Secretary-General of the Soviet Communist Party (1922–1953, totalitarian ruler), speech delivered at the Conference of Marxist Students of the Agrarian Question, Russia, 1929.

As you have seen, we now have the material base that will enable us to substitute the output of the collective farms\* for kulak\*\* output. That is why our offensive against the kulaks is now meeting with undeniable success. This is also why the offensive against the kulaks must be carried out, and why we have recently passed from the policy of restricting the exploitative tendencies of the kulaks to simply *eliminating the kulaks as a class*.

Now we are able to break the kulaks. The seizure of the kulaks' properties is an integral part of the plan to form and develop collective farms.

There is another question that needs to be answered. Should the kulaks later be permitted to join the collective farms? My answer is, of course not, for the kulaks are sworn enemies of the collective farm movement.

## Document 7

Source: Charter of a Russian agricultural collective, approved by the Soviet Communist Party, Russia, 1935.

### *Aims and Purposes*

The toiling peasants of the village voluntarily band together into an agricultural collective in order to establish, with common means of production and with organized common labor, to insure complete victory over the kulaks, over all the exploiters and enemies of the toilers, over want and ignorance, over the backwardness of small individual farms, to create higher productivity of labor and, by this means, to insure the well-being of the members.

The path of collective farming, the path of socialism, is the only right path for the toiling peasants.

The members of the collectives take on themselves the obligation to strengthen their work honestly, to distribute the collective farm income according to the amount of work done, to guard the common property, to take care of the collective farm property, to keep the tractors and machinery in good order, to tend the horses carefully, and to execute the tasks imposed by the workers' and peasants' government in order to make their Bolshevik collective farms and all of their members prosperous.

In 1928, I just started to notice people disappearing: first one, then another, and another. My parents didn't join the commune, remaining independent farmers. First they had a massive tax to pay; it was so high they were quite unable to pay it. After that, activists from the commune descended on us, breaking all the locks on the barns and clearing us out of all our corn. Next time they came to inventory our property. They noted it all down and carried it off. We were woken up in the night in early spring, 1929; we were told, 'You're going for good.' At dawn they lined several families up in the Rural Council building and then sent us off into the unknown.

<ul style="list-style-type: none"><li>Students must address <u>all ten</u> of the documents.</li><li>Student must demonstrate understanding of the basic meaning of <u>at least nine</u> documents.</li><li>Context can demonstrate understanding.<ul style="list-style-type: none"><li>Explicit, correct grouping does demonstrate understanding.</li><li>Merely restating verbatim or quoting the content of the documents does not demonstrate understanding.</li></ul></li></ul>	
<b>3. Supports thesis with appropriate evidence from all or all but one document.</b>	<b>2 Points</b>
<b>For 2 Points:</b> <ul style="list-style-type: none"><li>Specific and accurate evidence comparing land reforms must be <u>explicitly</u> drawn from a minimum of <u>nine</u> documents.</li><li>Evidence must be used to demonstrate at least one direct similarity <u>and</u> one difference between the land reforms.</li><li>A document that is simply listed does not count as using the document as evidence.</li></ul>	
<b>For 1 Point:</b> <ul style="list-style-type: none"><li>Specific and accurate evidence comparing land reforms must be explicitly drawn from a minimum of <u>eight</u> documents.</li><li>Evidence may demonstrate a similarity <u>or</u> a difference between the land reforms.</li><li>A document that is simply listed does not count as using the document as evidence.</li></ul>

<ul style="list-style-type: none"><li>Students must correctly analyze point of view in <u>at least two</u> documents.</li><li>Point of view explains why this particular person might have this particular opinion or what particular feature informs the author's point of view or tone.</li><li>Students must move beyond mere description by explaining how the characteristics of the author, the intended audience, and/or the intended outcome may have influenced the author's opinion.</li><li>Students may challenge the veracity of the author's point of view, but must move beyond a mere statement that the author is 'biased' by providing some plausible analysis.</li><li>Mere attribution is not sufficient. Attribution is copying or repeating information verbatim from the source line of the document.</li></ul>
